

Team Building Choir Workshops with Jules Addison

No previous singing experience is needed for one of our team building workshops. Along with the workshop leaders, Jules will choose easily accessible songs from a variety of traditions - world music, folk or pop, depending on the delegates and type of event being run. Most importantly the music will inspire your delegates to get involved and work together as one.

One Voice

Choirs are not made up of people singing at the same time, they are formed of people who sing together. Our workshops are designed to develop your 'corporate voice' and will teach you how to sing together and in harmony. Singing together breaks down barriers and will leave your delegates feeling energised and relaxed. What's more, you get a 'product' at the end of it – a song!

What does a workshop include?

A typical corporate team building course starts with a number of vocal exercises and games as an initial ice breaker. This is then followed by learning a suitably uplifting song which will be given a final performance, leaving the corporate body empowered with the confidence to sing and perform in front of others. Clients are encouraged to video the final performance for use on their website and Social Media Channels.

What do our clients say?

Our session ended on a Friday night with 54 exhausted delegates. In 45 minutes Jules had them on their feet, singing their hearts out and just loving it. For the next two hours it was all about team – singing together, laughing together, dancing together. A brilliant end to our conference... (Dr. Gwenllian Williams, Director. deWinton-Williams Consulting)
