

Choir Recordings - Information Sheet

We bring our studio to you, anywhere in the UK to make a professional recording of your choir!

Why choose 4 Part Music?

A recording is more than just a record of what happened. It is something which should be valued by the musicians who took part and give a true reflection of their high standards and the effort they put in. Since forming the company we have never compromised on anything in terms of the equipment and investment required to get the best results. As such you can be assured that a recording by 4 Part Music will be of the highest quality and do justice to your musical talents.

We are not a one man band and as a result we will set up our professional recording studio in a venue of your choice. This includes talk back systems and a separate production desk away from the recording space. You can even have one or more of your members act as Producer if you want total control.

How much does it cost?

1 Day Location Recording Included within CD price
Additional Days on location £250

Recording + Post Production + 300 CDs = From £1475 (£4.75 per CD)
Recording + Post Production + 500 CDs = From £1850 (£3.70 per CD)
Recording + Post Production + 1000 CDs = from £2200 (£2.20 per CD)
