

School Recordings - Information Sheet

We bring a Professional Recording Studio to your School for a day your pupils will never forget!

Why Choose Recordings 4 Schools?

A recording is more than just a record of what happened. It is something which should be valued by the pupils who took part and give a true reflection of their high standards and the effort they put in.

When forming Recordings 4 Schools, we never compromised in terms of the investment required to get the best results. As such you can be assured a recording by Recordings 4 Schools will be of the highest quality and do justice to your musical talents.

Our Recording Setup

We are not a one man band, and will set up a professional recording studio in your school. This includes talk back systems and a separate production desk from where we can provide play back of the tracks after you record them. You can even have one of your pupils act as a producer if you wish. We believe that a recording should have an educational value for your pupils as well as being a fantastic record of their music talent.

How much does it cost?

The recording session is FREE. All you pay for are the CDs.

Current pricing is shown on our website and we will always confirm a price in writing along with your booking confirmation.

Unless otherwise stated our prices include:

- ★ Mobile Recording Services at your School
- ★ Post Production and Preparation of CD Master
- ★ Travel to and from your school
- ★ CD Artwork Design
- ★ Copyright Licencing (where applicable)
